EDUCATION

Pamantasan ng Lungsod ng Valenzuela

Bachelor of Science in Information Technology | 2023–2027

PROJECTS

AGOS – AI-Guided Overflow System

FastAPI, React, PostgreSQL, Docker, Raspberry Pi, WebSockets

- Built an IoT flood monitoring platform integrating Raspberry Pi sensors, computer vision, and real-time telemetry.
- Developed FastAPI services with WebSocket communication for low-latency sensor and camera data streaming.
- Designed PostgreSQL schemas and Alembic migrations for scalable telemetry and media storage.
- Integrated OpenMeteo, Cloudinary, and SMS gateways for automated emergency alerts.

PLV CEIT Library

Laravel, Livewire, PostgreSQL, Docker

- Built a QR-based library management system for automated borrowing and attendance tracking.
- Integrated Livewire real-time updates for instant QR scan monitoring without SPA overhead.
- Optimized PostgreSQL transaction handling for accurate concurrent inventory tracking.

Feedback Management System

Laravel, React, Inertia.js, PostgreSQL

- Developed a full-stack survey platform with dynamic question builders, QR-based respondent access, and role-based permissions.
- Implemented queued PDF and Excel exports using Laravel Queues for asynchronous report generation.
- Built analytics dashboards with aggregated survey metrics and automated CI pipelines using GitHub Actions.

Task-Buddy

FastAPI, React, Redis, Celery, PostgreSQL, Docker

- Built a task management platform with JWT authentication, Redis token invalidation, and Argon2 password hashing.
- Created asynchronous notification pipelines using Celery, Redis, WebPush, and SMTP fallbacks.
- Containerized services with Docker Compose and implemented CI/CD workflows with automated security scans.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C#

Frameworks: FastAPI, Laravel, React, Node.js, .NET, Livewire, Tailwind CSS, Unity

Databases: PostgreSQL, MySQL, MongoDB, SQL Server

Tools: Docker, Git, GitHub, Railway, Vercel, Render, Postman

AWARDS

- **ITLympics 2026 – Silver Medal** | Cybersecurity: Capture the Flag | Pamantasan ng Lungsod ng Valenzuela | March 2026
- **14th National IT Skills Olympics – Representative** | Cybersecurity Quiz Bee | University of Makati | November 2025
